## ANTI-THEFT DEVICE ZKK80

for coupling heads  $\varnothing$  80 mm

ITEM NO.: 8005662

According to EU regulation 2015/208 (annex XVIII) trailers or implements have to be protected against theft.

With the anti-theft device from Walterscheid you are always on the safe side: Unauthorized access to the trailer or implement is made more difficult.

The anti-theft device ZKK80 is designed for all common coupling heads devices  $\varnothing$  80 mm. The included combination lock allows to define an individual number code for your vehicle fleet. This eliminates the need to carry a variety of keys.
